

# Collection: Infinity

"I love the light because it shows me the way. But I also love the dark because it shows me the stars"

Og Mandino

The "Infinity" series is dedicated to the enchantment of a starry night. The line is made of 10 × 10 cm tiles and two different decorations, characterised by relief designs of various heights. Covered with coloured glass enamels, the stars emerge from the bottom, lighting up in the darkness of the night like stars in the firmament. The decorations can be combined: in this way everyone can paint their own starry sky.
