" I like orchids:
they have colours of water, fire, earth and moon...."

Fabrizio Caramagna

Inspired by the perfection, purity and strength of a flower capable of growing anywhere, except in the desert, "Orchidea" is a "seamless" relief series, designed to form a single continuous module. Proposed in two sizes, 20x20 cm and 40x40 cm, the line is characterized by an exclusive palette in matt, glossy and craquelè versions, with a certain elegance, just like the flower that inspires it. A series capable of giving any environment a touch of delicate mystery.
